Release 0.2

Wijnand Modderman-Lenstra

Sep 12, 2017

Contents

1	Usage	3
1.1	Bugs/Features	3
1.2	Download	3
2	Indices and tables	5

Python interface to the POSIX getent family of commands (getpwent, getgrent, getnetent, etc.)

CHAPTER 1

Usage

Here a few examples.

Load the interface:

```
>>> import getent
```

Doing a passwd lookup:

```
>>> print dict(getent.passwd('root'))
{'dir': '/root',
 'gecos': 'root',
 'gid': 0,
 'name': 'root',
 'password': 'x',
 'shell': '/bin/bash',
 'uid': 0}
```

Doing a group lookup:

```
>>> print dict(getent.group('root'))
{'gid': 0, 'members': [], 'name': 'root', 'password': 'x'}
```

Bugs/Features

You can issue a ticket in GitHub: <https://github.com/tehmaze/getent/issues>

Download

Get your copy of getent from pypi: <http://pypi.python.org/pypi/getent>

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`
